

CHIPMASTER™ Filter Conveyor Systems

Extend Coolant Life and Improve Machining Performance

The ChipMaster™ Filter Conveyor is ideal for any chip removal application that requires a coolant filtration system. It's designed to filter coolant and remove metal chips and fines down to 50 microns nominal and features a self cleaning drum filter with a back-wash system. The ChipMaster™ Filter Conveyor has a dual conveyor system with an upper hinged steel belt to handle large, heavy loads and a lower drag out system to remove fine particles. Its proven design provides for low maintenance and durability and it is available in any size and configuration for special applications.

Filter Coolant and Separate Large Chips, Stringy Threads, Bird Nests, Turnings and Fines from Cast Iron, Aluminum and Steel.

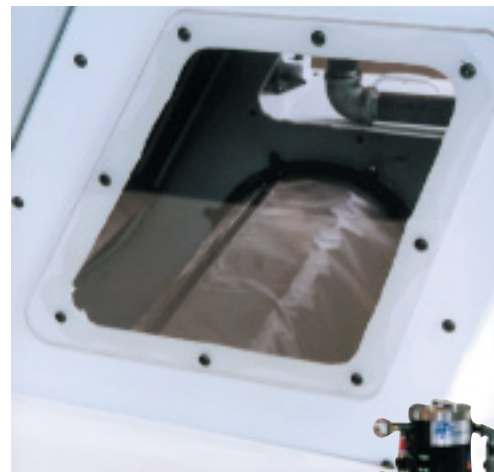

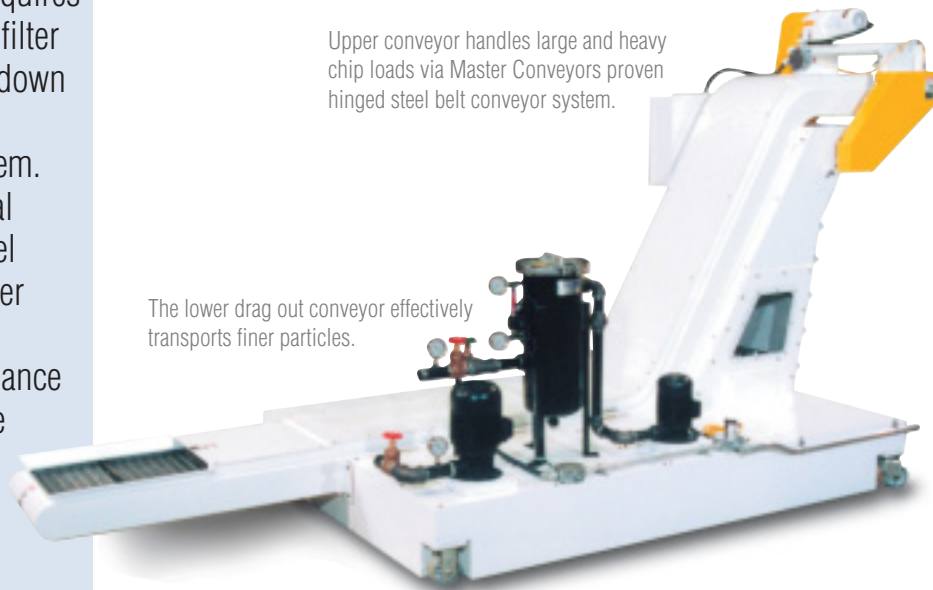

Optional Equipment:

- High pressure coolant system
- Coolant or spindle chiller
- "Plug It In & Go" Turn-key system
- Swivel or rigid castors with locks
- Please call for additional options

Upper conveyor handles large and heavy chip loads via Master Conveyors proven hinged steel belt conveyor system.

The lower drag out conveyor effectively transports finer particles.

Liquid tight viewing window allows for visual inspection of filter system.

**Superior
Customer
Service**

Fast!

We realize every customer has specific needs that must be satisfied, without exception. Product inquiries and quotations are handled by qualified sales engineers who are trained to ask the right questions and provide you with the right answers and quotes within 24 hours. Quotes and processing product service orders can be accepted through our agents and distributors, by fax, e-mail and through our website.

Better Products At Great Prices

Master Conveyors is a value-priced manufacturer of products for the metal working industry. *In addition to manufacturing Filter Conveyors, we also manufacture a full-line of conveyor systems including Hinged Steel Belt, Magnetic and Drag-Out Conveyors under the ChipMaster™ brand name.* We ensure quality by producing our own chain and sprockets and we are recognized as a dependable manufacturer of complete systems. With all operations completely in-house, we're able to pass along substantial savings. Canadian customers can rely on a dependable source of supply for ready-to-ship components while our American customers can take advantage of favorable U.S. dollar exchange rates.
