

Why choose MC3 Manufacturing?

We configure our systems to maximize your project ROI and scrap \$

Every time we order from MC3 we already know we're going to get very high-quality products. As a buyer, I always have the confidence they're going to do things right.

~ Gabriela Gheorghita,
Buyer, Valiant

- Our engineering team optimizes your customized conveyor for fit, performance, longevity and cost savings
- We have over 20 years experience designing and manufacturing conveyors and systems
- Available in 4", 6" and 9" pitch chain
- Heavy-duty hinged steel belt is appropriate for both fine chips and heavy scrap
- Smart conveyors with HMI screens that allow you to monitor the status of the system and interface with existing presses and weigh scales

INDUSTRIES SERVED:

- Stamping
- Mills (hot or cold raw material; Slitting; Cropping)
- Recycling
- Machining
- Forging

“

The conveyor you made for us was installed in July and has been working great. It was a tight squeeze but you guys did a great job holding the limits I needed.

Dan Coomber,
Bloxsidge Manufacturing
